

A 3D diagram of a cylinder. The top circular face is shaded in a light tan color. A radius line is drawn from the center of the top face to its edge, labeled with the number 6.0. The height of the cylinder is indicated by a vertical line on the right side, labeled with the number 8.0. The bottom circular face is also shaded in the same light tan color and is represented by a dashed line to show it is behind the cylinder's body. The cylinder's body is outlined with a solid black line.
